ACTIVATION

- Start by explaining there are positives and negatives about using technology and going online and that it's not just as simple as being always good or always bad

- Draw a horizontal line across the board and label the sides 'positives' and 'negatives'. Ask students to share their ideas and experiences of the positive and negative sides and record these on the board

REFLECTION / EXTENSION

- Ask the students how they can balance the positives and negatives

- Come up with ideas to reduce the negative experiences and increase the positive experiences

SUPPORTING RESOURCE
